

## 1363

*“White PTFE & yellow Aramid packing”*

Combining white PTFE yarn with yellow Aramid provides a clean, durable packing that is less abrasive than all-aramid packing.

1363 is a good “clean slurry” packing with a zigzag pattern.

**Construction:** Interwoven braid.

**Temperature Range:** 500° F

**pH Range:** 1-12

**Pressure:** 500 PSI in pumps & mixers

**Shaft Speed:** 1,500 FPM

**Service:** Often used for sealing slow/large mixer shafts.

When ordering, please specify style, size, quantity and packaging desired.
